

New Pro Line Pads

As most have already noticed, new pads are now available in the Pro Line Brand. Change is not always accepted easily but this change will result in pads that are higher quality, will last longer and provide more choices. We are confident you will be pleased.

Our most popular buff pad the, “Aqua” pad, is replaced with the “Mint” pad or the “Champagne”. We are very excited about the new “Ultra Blue” strip pad. Talk about aggressive! You won’t find a better strip pad than the “Pro Line Ultra Blue Strip Pad”!

“...this change will result in pads that are higher quality, will last longer and provide more choices.”

Below is a chart of the pads now available. Feel free to experiment to find the pad that is right for you or ask for our assistance.

Introducing "Tom Cat"

Another outstanding addition to Tower is the Tom Cat line of sweepers and scrubbers. Tom Cat offers everything from small walk-behind scrubbers and sweepers to large riding scrubbers and sweepers. All machines are available in traditional disk or cylindrical scrub versions.

Because Tom Cat benefits from the experience of it's sister company Factory Cat, an industrial line of floor cleaning equipment, these machines are ruggedly built and well engineered. We are confident that you cannot find a better machine for the price ANYWHERE!

We have sold and repaired every brand of scrubber out there and none have the features, strength, ease of use and attractive pricing that Tom Cat offers. They are in stock so come in and check them out! We know you will be impressed too!

"...you cannot find a better machine for the price ANYWHERE!"

2000 Series Walk Behind Scrubbers

- Disk or Cylindrical Design
- Up to 6 Hour Run Time

3300-4700 Series Sweepers

- 34" - 44" Sweep Path
- Up to 8 Hour Run Time

New Pro Line Ultra Strip

Pro Line strippers have been considered the best of strippers for many years. **Pro Line Strip Off** is our workhorse of strippers. Being a “no-rinse” stripper it leaves no elevated pH once the floor has dried and yet it is a powerful stripper that keeps working as long as it is wet.

Pro Line Power Strip is a glycol ether based stripper with a higher pH to effectively remove problem coatings.

Pro Line Rescue is a high pH stripper designed for extreme stripping condition.

A new stripper is now available, **Pro Line Ultra Strip!** Pro Line Ultra Strip has a VERY high dilution ratio of 1:19! It features a **multiple solvent formula** that quickly and easily dissolves all floor finishes and sealers. The dwell time on this product is only 3-5 minutes! In other words, by the time you lay the stripper it is ready to aggitate and remove! The dilution ratio on this product is not a gimmick. You will have to see it to believe it.

“The dwell time on this product is only 3-5 minutes!”

Stripper	Active Ingredient/s	Dilution Ratios	pH	pH at 1%	Comments
Strip Off	Ethylene Glycol	1:1 - 1:5 or 25-128 oz/gal of water	10.5 - 11.5	10.1	Excellent stripper for regular use. Provides maximum performance with minimal effort. Will not leave a residue that requires rinsing.
Power Strip	Ethylene Glycol and Sodium Hydroxide	1:5 - 1:10 or 12-25 oz/gal of water	12.5	10.8	An aggressive high power stripper for floor finishes that require a higher alkaline stripper. Requires rinsing and/or neutralizing.
Rescue	Sodium Hydroxide	1:10 - 1:30 or 4-12 oz/gal of water	13.5		An extremely powerful stripper for use on the toughest of floors. Highly caustic formula. Requires neutralizing and rinsing.
Ultra Strip	Multiple Solvents	1:19	10.5 – 11.5	10.5	Super concentrated with multiple solvents that immediately attack floor coatings making removal a snap! Rinsing is required.

Tower Industries Catalog & Web Site

We now have a new catalog available with virtually all of the products Tower Industries carries. It is divided into sections to easily find the items you are looking for such as: Can Liners, Paper Products, Carpet Chemicals, Skin Care, etc. If you have not already received a catalog please ask for one.

You will also be pleased with our updated web site www.TowerIndustriesInc.com. We are continually adding information to the site for your convenience. You'll find MSDS, product literature, interesting articles and numerous other helpful pages. Enjoy!
