

## SPOTTERS

### ALL PURPOSE SPOTTER

This freshly scented, scientific blend of water-soluble solvents and compatible surfactants offers a superb spotter which quickly removes 85% of commonly occurring oil and water based stains including coffee, fruit juice, ink, soft drinks and lipstick. Ideal for use as a traffic lane pretreat prior to spin bonnet or extraction cleaning. Leaves no sticky residue which prevents rapid resoiling.

**per quart Item # CA-S-QT**

**per pint Item # CA-S-P**

### SOLVENT SPOTTER

Ideal for removing grease, cosmetics, paint, oil and tar. Does not contain chlorinated solvents such as Trichloroethylene or Perchloroethylene.

**per pint Item # CA-SS-P**

### GUM REMOVER

Softens and lifts gum with natural citrus solvents. Contains no harsh petroleum solvents or ozone-depleting compounds. Also excellent for removing adhesives, stickers, tar, candle wax, and crayon.

**per pint Item # CA-GR-P**

**For a Freezing Aerosol per 6 oz can Item # CA-GR**

### MICRO-DIGESTANT

This concentrated odor eliminator and stain remover contains special strains of enzyme producing bacteria that digest and eliminate odors caused by spoiled food, vomit, urine, mold, mildew and other organic soils. Use on all hard surfaces as well as carpets and upholstery. Spiced Floral Fragrance.

**per quart Item # KR-MD-QT**

**per pint Item # CA-MD-P**

### BROWN OFF

This tannin spotter safely and effectively removes carpet browning caused by coffee, tea, wine, cola and fruit juice stains. When used prior to extraction cleaning, it easily eliminates alkaline discoloration caused by overuse of carpet shampoos and cleaners. Use with confidence on both carpet and upholstery.

Fax: (253)581-4749

## General Spotting

### Step 1:

Always test carpet for colorfastness. Determine source of spot. Refer to spotting guide for spotter choice. Apply spotter in a small, inconspicuous area and lightly rub with a clean, white cloth.

### Step 2:

Begin by removing excess soil with a bone scraper or dull knife and soak up spills with a white, clean cloth.

### Step 3:

Spray a small amount of spotter directly on the spot.

### Step 4:

Tamp spot with a tamping brush. Do Not Scrub.

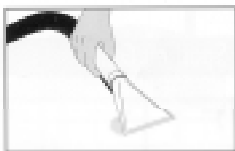

### Step 5:

With a clean, white cloth blot the spot working inward from the edge to the center. Never scrub when removing a spot.

### Step 6:

Repeat steps 3, 4 and 5 if visible soil still remains. Otherwise, rinse with water and blot dry with a clean cloth or extract.

## Spotting Guide

STAIN	APPLY 1 <sup>st</sup>	APPLY 2 <sup>nd</sup>
Beer	All Purpose	Brown Off

Wine	All Purpose	Brown Off

## Gum Removal

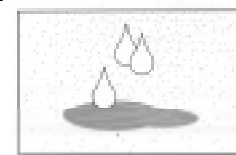

### Step 1:

Always test carpet for colorfastness. Apply Gum Remover in a small, inconspicuous area and lightly rub with a clean, white cloth.

### Step 2:

Apply a few drops of Gum Remover on top of the gum and let it stand for five minutes.

### Step 3:

Using a bone scraper, start at the edges and force the gum to the center in a mound and remove.

### Step 4:

Rinse with water and blot dry with a clean cloth or extract.

## Micro-Digestant

**Step 1:** Always test the carpet/upholstery for colorfastness.

**Step 2:** Remove excess soil with a scraper. Remove dry residue with a vacuum and blot the wet residue with a cloth.

**Step 3:** Wet the affected area thoroughly. Keep area moist for at least 24 hours.

**Step 4:** Continue application until odor subsides. For odor causing stains below carpet backing use a syringe to inject Micro-Digestant directly onto odor source.
