- Adjust Valves
- Torque Head Bolts
- Change Spark Plug
- Adjust Carburetor and Regulator using an exhaust analyzer to achieve optimum engine performance and fuel efficiency to meet OSHA and EPA guidelines.

Emission Test Only 16.00
Tune Up on Honda 11hp and 13hp engines only: 48.00
Tune Up on all other single cylinder engines: 64.00
Tune Up on all V-twin engines: 96.00
Parts are not included.

For more details or to make an appointment call **(253) 581-2323 or toll free (888)818-2833. Dial 3** for the Service Repair Department or ask for Paul.

Recommended Tune-Up Intervals:

Honda 11-13hp (GXV340-390)	300 hrs / 1 year
Honda 20hp (GXV620) V-Twin	300 hrs / 1 year
Kohler	300 hrs / 1 year
Briggs & Stratton	300 hrs / 1 year
Kawasaki V-Twins	300 hrs / 1 year
Onan	300 hrs / 1 year

If there is a discrepancy between your buffer owner's manual and this chart, follow the guidelines set by the manufacturer of the equipment. Note however that engines installed on propane buffers work much harder than other applications and require more frequent service.

Services

Shop Rate:

\$64 per hour

Minimum charge of 1/2 hour

All jobs will be bid and submitted for approval before work is begun. After approval, charges will not exceed 10% of the quoted amount without further prior approval.

Some jobs may require a 5-10% hardware fee.

Transport:

\$43 per hour while our driver is on the road. If there is a supply order being delivered at the time of pick-up or delivery then the transport fee will be waived.

Mobile On Site Service:

On site service is available at a shop rate of \$74 per hour. A minimum charge of one hour applies to all mobile repairs in addition to time spent at the location. Repairs that are further than half an hour from our location will be charged at \$74 per hour.

Service Agreement:

Inquire about our service agreements. We can accommodate any mobile or in-house needs you may have, from servicing automatic scrubbers to upright carpet vacuums.
